

This block is "Lady of the Lake."

It measures **12" finished (12-1/2" unfinished)**

Twenty small half square triangle units surround one large half square triangle unit.

There are only two fabrics for each block - Fabric A is lighter, and Fabric B is darker.

Justine would like to have it in **contrasting shades of blue batiks** - any range of values is acceptable as long as there is contrast between the two fabrics.

Use your favorite method of constructing half-square triangle (HST) units, but this block will only come together if you measure each unit before you start assembling the block:

The small units are 2-1/2" unfinished.

The large unit is 8-1/2" unfinished.

(We are planning a TSW, June 7, on various methods of constructing HST units.)

If you would like to paper piece your rows or HST units, let Phyllis know and she will print out patterns.

To assemble - refer to the diagram. (Note: at all times, fabric A is sewn to fabric B; never is fabric A sewn to fabric A, nor fabric B to fabric!)

- Sew 6 small HST units together to form the top row. (press to the dark)
- Do it again to form the bottom row.
- Sew 4 small HST units together to form the left side (press to the dark)
- Do it again to form the right side.
- Attach the sides to the large HST unit. Press to the large unit.
- Attach the top and bottom rows. Press wherever the seams want to go!
