

This is a string-pieced block, using bright patterns/solids, **unfinished at 9 ½ x 9 ½**. Prewashing is not necessary.

Fabric required:

- One 10 inch square of muslin or similar fabric for a foundation.
- Approximately 16 fabric strips cut 10 ½ x 1 ¼

To make the fan effect, you need to trim a little wedge off of each strip. Mark a ¼ indicator at the end of each strip and trim the strip so that it has the slight angle.

With right sides together and small edges at the same end, place two strips in the approximate center of your foundation and stitch. Press open and repeat on the right and the left until foundation is covered.

Ready to trim to 9 ½ inches.
