

Friendship Block

For Rhonda Denny

Titled: Sew Outside The Block (Some Of My Favorite Things).

Inspired by Genie Becker's 'Childhood Memories' friendship block

Like Tera A, I've been thinking about this project for several years now. Each time I believe I have the perfect idea something happens and I change my mind. Next thing ya know years have passed sew after much consideration and consultation, I've selected topics and or things that make me happy. I plan on using each inspiration in a poem or story to accompany the quilt. If I had any advice it would be "just roll with it" and have fun!

This is how it works: Each number assignment is a block. There are baggies with batik material to use as little or as much as you like. The Batik is the thing that binds it all together. The blocks are handed out first come first serve. Valeska has selected block number 7. I can't wait to see what she does with the wee scrap of batik that she received.

If you have questions holler 542.8013 thanks!
