

It's A Mystery (but not mysterious) ...

Part 5

The Solution!

With Unit 3 in the center, sew a Unit 1 to each side. Press seams open.

Then, sew a Unit 2 to the top and bottom. Press seams open.

Lay the blocks out in 3 rows with 2 blocks per row.

Between each block, use Unit 4A as sashing, one to either side and one in the middle. This will give you three rows. Press seams open.

Use Unit 4B as horizontal sashing and sew the rows together. Add one 4B to the top and bottom. Press seams open.

Add borders of your choice to acquire the desired size.

Thus endeth the mystery!

I hope you had fun!

Jim Jensen
