## Fabric selection

As the feathers are assembled, small pieces of fabric will be cut. In selecting fabrics choose designs that will "do the work". Fabric patterns which read as stripes work best. The print can be stripes, plaids, flowers, polka dots...the key is the patterns are in rows, hence, read as stripes.

## Before the Class

If you make the frame ahead of time ( the center piece with the borders) you will be able to start the rooster straight away and will not need your sewing machine, batting and backing. Cut first and middle border pieces 1.5" and outer border 3.5". A demo will be given for tips on quilting.
